

SPCOA FORUM

To make a comment or join the discussion you do not have to login or create a Disqus account, though if you do, you can get email notifications of comments on your post. You can log in with Facebook, Twitter, Google or just post as a guest. When you click on the join the discussion box and type your message, you then put your name or any name you wish below the comment in the name box. You can then choose to post as guest or create an account if you wish.

This screenshot shows the initial Disqus comment form. At the top left, there are 'Recommend' and 'Share' buttons. Below them is a profile picture icon and a large text input field containing the placeholder text 'Join the discussion...'. Underneath the text field is a smaller image upload field. The bottom section is divided into two options: 'LOG IN WITH' followed by icons for Disqus (D), Facebook (f), Twitter, and Google (G); and 'OR SIGN UP WITH DISQUS' with a question mark icon. A 'Name' input field is positioned to the right of the social media icons.

After you type a name, it looks like the below screenshot. If you choose “post as guest” the password box will go away. Just check the boxes for agree to terms and post as guest then submit by clicking the arrow. The comments of all guests are required to be moderated and will be posted pending approval.

This screenshot shows the Disqus form after a name has been entered. The text input field now contains 'Looking for spark plugs!'. The 'LOG IN WITH' section remains. The 'OR PICK A NAME' section now includes a 'Name' field with 'Howdy' entered. Below the name field is an email field containing 'howdy@comcast.net'. There are three checkboxes: 'I agree to Disqus' Terms of Service', 'I agree to Disqus' processing of email and IP address, and the use of cookies, to facilitate my authentication and posting of comments, explained further in the Privacy Policy', and 'I'd rather post as a guest'. A dark grey arrow button is located at the bottom right of the form.

Click the above arrow after filling in your info and checking the boxes to submit your comment
